Dear Sir:

I, James O. Burke, do hereby declare and state the following:

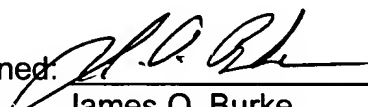

1. I am the named inventor in the above-referenced patent application. I invented the subject matter of at least claims 6-25 (Tab 1) in the above-referenced application.

2. To the extent that the subject matter of claims 6-25 (Tab 1) in the above-referenced application was disclosed in U.S. Patent No. 6,679,212 (Tab 2) to Kelling, that subject matter was invented by me. More specifically, Gordon L. Kelling was not involved with the conception of the invention set forth in claims 6-25 (Tab 1) of the above-referenced application to the extent that subject matter was disclosed in the '212 patent.

3. As set forth in the enclosed statement from Gordon L. Kelling (Tab 3), the originally named inventor of the '212 patent, the '212 patent was mistakenly filed only in the name of Gordon L. Kelling. Mr. Kelling has subsequently agreed that the inventorship of the '212 patent should be changed such that the inventors named are Gordon L. Kelling and myself. In addition, Mr. Kelling and I executed a Substitute Declaration (Tab 4) for the '212 patent wherein we both declared under penalty of law that we were joint inventors of the subject matter which was claimed in the '212 patent.

4. All statements made herein of my own knowledge are true and all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
